

THE ULTIMATE PORTABLE SAWHORSE

The Centipede[®] Concept...

The Centipede[®] Support System is the ultimate portable workbench or table base – a heavy duty steel stand that sets up in seconds to support thousands of pounds and folds down into a compact, lightweight unit for easy transport and convenient storage.

Featuring a unique steel frame design, each Support is constructed of multiple steel struts that rest directly between the load and ground to support an incredible amount of weight while keeping even the thinnest sheet materials from sagging. Each strut is moved in tandem with a series of flat steel cross bars flexible enough to absorb impacts and durable enough to ensure long-lasting smooth operation.

Durable polymer P-Tops atop each point of contact provide a work surface that won't mark loads while avoiding contact damage between cutting blades and steel struts. Each P-Top is replaceable and spins 360 degrees to accommodate use of the included or additional accessories designed to maximize utility, comfort and convenience.

Centipede[®] Sawhorse 6S

➤ **QTK100**
600 x 1200mm

Weight: 5kg
Max Load 680kg
Working Height 76cm
Folded Height 97cm

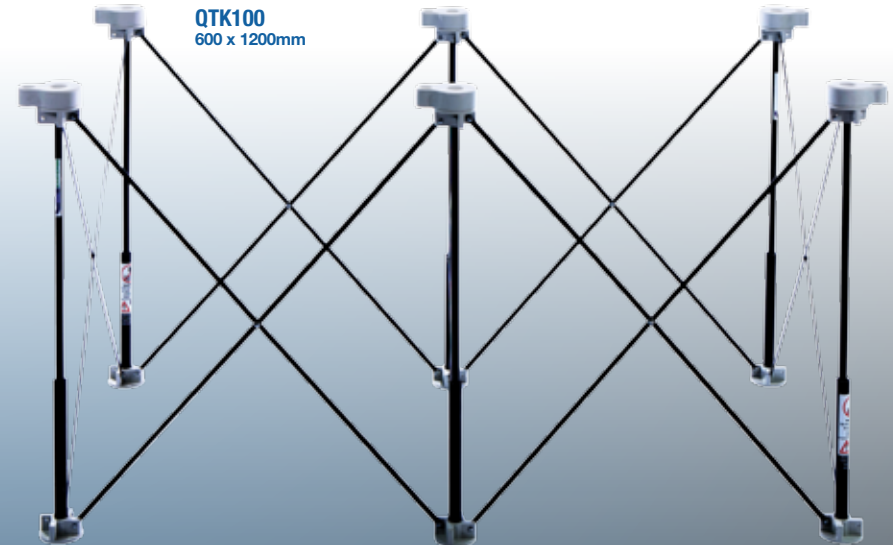

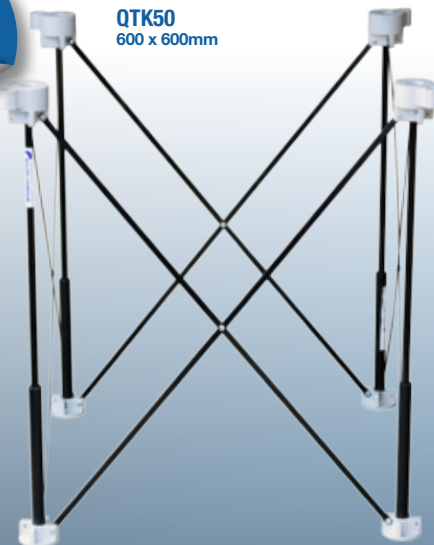

**680kg

QTK200
1200 x 2400mm

X-Cups

- Quick setup for traditional sawhorse applications
- Fits standard 2×4 boards
- Quick cuts without clamping

CODE: QTA0202
Pack of 2

Quick Clamps

- Secure table/bench tops quickly, without tools
- Hold boards in place during cuts
- Soft overmold stem provides maximum wedge tension

CODE: QTA0302
Pack of 2

Hanging Hooks

- Keep tools out of the way and close at hand
- Easy installation – slide up through P-Top, rotate and drop in
- Carries heavy weight when there is a load on the frame

CODE: QTA0402
Pack of 2

Non Slip Pads

- Improves table/bench top stability without clamps
- Low profile solution for holding materials in place
- Fits in P-Top hole allowing use of other accessories

CODE: QTA0606 **CODE: QTA0615**
Pack of 6 Pack of 15

Risers

- Raise table/bench tops to comfortable 36 counter top height
- Allows use of P-Top accessories
- Does not reduce unit load rating

CODE: QTA0506
Pack of 6

CODE: QTA0515
Pack of 15

P-Tops

- Protects load, cutting blade and struts from damage
- Standard 3/4" nut (included) for easy replacement
- Spins 360° for convenient positioning of accessories

CODE: QTA0103
Pack of 2

Storage Bag

- Rugged canvas carry bag for transport and storage
- Room for accessories and extras
- Zips shut to keep the elements out

CODE: QTC0100
4 & 6 Strut Bag

CODE: QTC0200
9 & 15 Strut Bag

Carry Strap

- Keep struts together for easy transport
- Quick setup – just fasten steel clips and go
- Easy key ring style installation
- Ideal solution for transporting units with Risers installed

CODE: QTC0101
1 Piece for 6 Strut

CODE: QTC0201
1 Piece for 15 Strut
