

CABINET HARDWARE & PUCK LIGHT JIG

HARDWARE JIGS

TP-1934

Cabinet Hardware Jig

- Install hardware up to C-C (300mm)
- Durable aircraft quality aluminium
- 5mm case hardened steel bushings are replaceable
- Made in USA

For professional installation of handles & knobs. Works on doors and drawer fronts. An invaluable tool for any cabinet installer. Simply slide guides and stop along imperial & metric rulers, tighten thumb screws & drill. TP-1934 is the core unit of the complete drilling system (TP-1935). Locates hardware holes of any dimension on doors & drawer fronts.

Includes standard 5MM drill bit (approx. 3/16"). Durable light-weight aluminium with case hardened steel bushings. Made in USA

HARDWARE JIGS

TP-1935

Cabinet Hardware Jig + Shelf Pin Long Handle Jig

- Install hardware up to 30-1/4" C-C (800mm) & portable 32mm shelf pin holes
- Install shelf pin holes before or after cabinet assembly
- Durable aircraft quality aluminium
- 5mm case hardened steel bushings are replaceable
- Made in USA

Versatile 3-in-1 tool: door hardware – drawer hardware – shelf holes. The all around template solution for the cabinet installer. Also a great alternative to the line boring machine for the small shop.

Includes the basic hardware jig (TP-1934) with additional drilling extensions for 32mm line boring. Drill shelf holes in the shop before assembly or on the job after assembly. Simply slide guides and stop along imperial & metric rulers, tighten thumb screws & drill. Also drills long handles up to 29" length. Locates hardware holes of any dimension on doors & drawer fronts. Includes standard 5MM drill bit (approx. 3/16"). Durable light-weight aluminium with case hardened steel bushings. Made in USA
